Peonies and Irises

PUGET SOUND PEONY GARDENS

IVAN W. GOODNER, *Owner*

(South Side of Haller Lake)

R. F. D. 12, Box 727, SEATTLE, WASH.

Did You Know—

That the Puget Sound country produces the finest Peonies and Irises in the world?

That as permanent investments and garden ornaments the Peony and Iris lead all perennials?

That at Haller Lake, just north of Seattle, we grow the world's best, both in novelties and standard varieties?

That our Peonies won the Sweepstakes Medal of the American Peony Society, at Seattle, in June, 1928?

That they won the Silver Medal of the American Peony Society for the best collection of 100 double varieties, in 1926, at Seattle?

That sixteen of our prize Peony blooms were sent by air-mail to the Boston Show of the Massachusetts Horticultural Society and the American Peony Society, in June, 1928, where their beauty and perfect condition attracted great attention and complimentary comment in flower magazines and the Boston press?

That our Irises won the Blue Ribbons in all professional classes at the Seattle Garden Club's 1928 Spring Flower Show?

That Irises show to best advantage in *mass plantings*?

That we furnish fine modern Irises, in the various colors, at a cost as low as \$2.00 per dozen?

That to encourage beginners we have Special Collections of choice varieties of both Peonies and Irises at greatly reduced prices?

That the Peony will usually bloom the first year, have more and larger flowers the second year, and increase in number and size of flowers thereafter from year to year?

That failure always results if the Peony root is planted too deeply?

Some Comment on Our Air-Mail Peonies

"I want to congratulate you on the delightful little collection of Peonies you had at the Peony Show in Boston yesterday. 'Enchantresse' was one of the most perfect blooms at the show. It looked like a bloom direct from the garden, and it seemed incredible that it had come all the way across the continent. 'Mrs. Frank Beach' was almost as perfect, a lovely specimen of a fine flower. You certainly are to be congratulated."—DOROTHY BIDDLE, Editor "Home Acres," New York, June 22, 1928.

Boston, June 27, 1928.—"In some ways your air shipment of Peonies was the sensation of the Peony Show. At least it received more attention in the newspapers than anything else, several of them publishing pictures of the flowers."—E. I. FARRINGTON, Secretary Massachusetts Horticultural Society.

Announcement!

Because of the limited ground space at our disposal, we have been obliged to close out our stock of Regal Lily Bulbs and can no longer furnish them or Regal Lily Seed.

For the same reason we have disposed of our entire stock of high-grade Japanese Irises to Mrs. Adelaide E. Sims, R. F. D. 12, Seattle, who will be glad to answer all inquiries.

We are specialists in the growing of high-grade Peonies and Bearded Irises only. Our stock, largely originally imported from Europe, and otherwise procured mostly from the American originators, is modern in selection of the choicest varieties, and is grown under conditions producing clean, healthy and vigorous plants. The uniform success our flowers have met in competition, and the pleasure so generally expressed by those who are growing our Peonies and Irises in their gardens throughout the nation, and in Canada, warrants the belief that there are none better grown anywhere. But the best stock will not give complete satisfaction unless properly planted in a position where sun, air and good drainage are present.
